

Representing the 10th District Communities of:

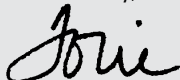

New Haven • West Haven

Dear Neighbor,

The 2007 legislative session is underway and our state faces many challenges. The number of children and families with little or no access to affordable quality healthcare continues to grow and our electricity rates continue to rise. These are issues that must be addressed during this legislative session. Additionally, of special interest to me is my ongoing effort to keep nonviolent 15-and 16-year-old juvenile offenders out of the adult judicial system.

Should you have any questions or need assistance on issues relating to your state government, please contact my office at **1-800-842-1420**.

Sincerely,

Toni Harp

Your State Senator

Increasing Access to Affordable, Quality Healthcare

We must ensure that all of Connecticut's residents have access to affordable, quality healthcare. To begin to achieve this goal, we must:

- Establish incentives that promote healthy behavior
- Provide incentives and support for businesses that continue comprehensive coverage for their employees and employees' dependents
- Expand HUSKY coverage for children and adults
- Promote preventive care through the expansion of school-based health centers

These are the first of many steps that must be taken in order to fix a system in desperate need of repair.

Providing Opportunities for Smart, Affordable Energy for Today and Tomorrow

The recent increase in electricity rates has reinforced the urgent need for the state to examine both short-term remedies and long-term solutions to help stabilize energy costs for businesses and residents.

We must encourage energy efficiency and conservation through greater investment and incentives. In addition, we need to work with our Congressional delegation on a federal energy policy that emphasizes conservation, investment in renewables and energy independence.
